

NEW

HOT DISK

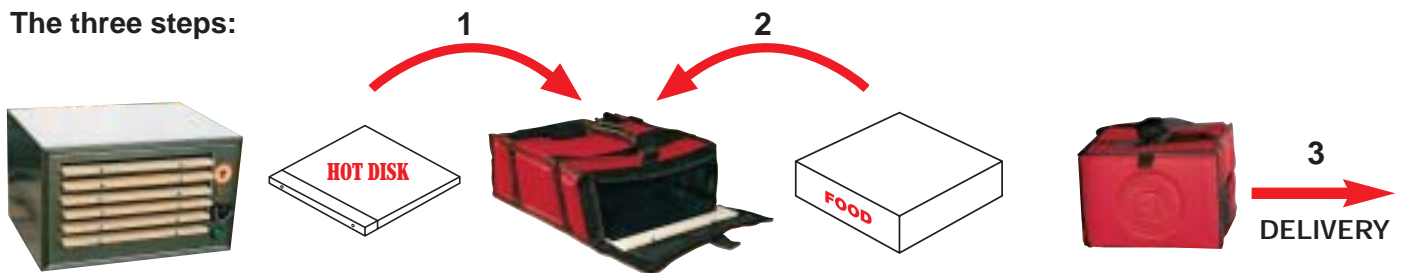

- For all your deliveries there is GREAT HOT NEWS
- It will be one of your SECRETS to your success.
- No more COLD deliveries.
- The system is very simple:
take a disk from the machine and place it into the thermal bag-then put in the pizza/food for delivery, close the bag and go.
- It maintains 75°c for more than 30 minutes.
- Low consumption only 150w/h.
- Practical, efficient and clean.
- Supplied with 6 disks.
- Each disk is heated individually.
